

Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Operations School

DATE: 30 November 1955

FROM : Assistant for Headquarters Training

SUBJECT: Weekly Activities Report Number 48
23 through 29 November 1955I. SIGNIFICANT ITEMS

a. Advanced Counterespionage Number 10 began on 28 November and will close on 9 December 1955. This course will close the current CE series. The new CE operations course of three weeks will begin on or about 19 March 1955. A total of 43 persons sought to enroll in this last running of ACE. With the final screening conducted by the CI Staff, the number was reduced to the normal enrollment of fifteen.

II. OTHER ITEMS

a. During the past year the [] has been given nine times and has provided training to 238 students. The last running (7-23 November 1955), attended by thirty-nine students (four in excess of the thirty-five maximum), was the largest class to date. As reported in our Weekly (No. 45), this running was an experiment in conducting the course on a twelve-day basis instead of a full three weeks (15 days). Although a detailed analysis of the student critiques has not yet been made, it is clear that the majority felt that twelve days was about the right running time for the course as it is presently constituted. This matter of whether the CSR should revert to a full three weeks, or be continued as a twelve-day course, or be reduced to two weeks will be carefully studied by the Chief Instructor before the next scheduled running (9-27 January 1956) and his recommendations submitted for approval.

b. In order to coordinate CE training [] members of the CE Section and the CI Staff will arrange a meeting [] during the week of 12 December 1955.
